RUW in April

Last month we organized an activity. The activity was called: 'High Tension'. It was about

sustainable energy initiatives in Wageningen. We organized the activity together with Otherwise and Transition Towns Vallei. The questions we wanted to answer were:

Which movements are on going in Wageningen towards sustainable energy use?

What can you do yourself?

There were three short presen-

tations of local initiatives in Wageningen by:

- Wim Haver: Transition Towns Vallei
- Sanne Meelker: Municipality of Wageningen
- Hanneke Tent: Ontwerpburo Roza

You can find a detailed report on our website.
